

Website Solutions

Let us work with you to analyze your needs, design, launch and maintain your website, and provide you customized optional services to help you reach your customers.

We offer two **affordable** website plans:

ECONOMY PLAN for small businesses with a limited website budget which need an attractive basic website / email presence and routine updating and maintenance. Prices depend upon number of webpages / email addresses and other features desired

CUSTOM PLAN for larger businesses needing email and more complex website design and functionality, with a greater website budget. Prices will depend upon number of webpages / email addresses and functions / modules desired for a complete design and launch.

Our Plans are great for your business if you:

- Need a new domain name, website, email and hosting
- Need ongoing website and email hosting with monthly updating and maintenance

Our Website Plans

- **ECONOMY PLAN:** provides new basic website and email services. This plan is ideally suited for small businesses having basic website content and operational needs. We'll work closely with you and have your website and email services designed and operating in no time, and at a cost which fits your budget!
- **CUSTOM PLAN:** provides email and special customized websites needing advanced design, functionality and interactive website modules. This plan is ideally suited for larger businesses and organizations with greater website budgets. Our website design consultant works closely with you to design and launch your website. You'll have the more elaborate design and functionality features your business requires. Your unique website will give your customers the enjoyable visit experience you depend upon to generate new business. You'll be pleased with your unique website and so will your customers!
